

Elkhadir Zakaria

FRONTEND SOFTWARE ENGINEER

Full-Stack Developer with 1+ year of experience building scalable, user-centric web applications using React, Next.js, TypeScript, and the MERN stack. Certified by ALX Africa's Software Engineering program, with hands-on expertise in both frontend and backend development (Django, Express, MongoDB). Proven track record of delivering end-to-end solutions under tight deadlines. Passionate about optimizing performance, solving complex problems, and collaborating with cross-functional teams to deliver impactful products.

ALX Africa — Software Engineering (Mar 2023 · Nov 2024)

Completed a rigorous program covering front-end and back-end development, DevOps, and problem-solving.

- Certification

PROJECTS

CineSafe- Safe Movie Discovery Platform:

Technologies: Next.js, Tailwind CSS, ShadCN UI, OMDb API

- Built a platform to help users search, discover, and explore family-friendly movies
- Integrated OMDb API for fetching comprehensive movie data and stories.
- Designed a modern, mobile-first UI using Tailwind CSS and ShadCN UI for a seamless user experience.

Riad Flavors - Real-Time Food Ordering System:

Technologies: React, SCSS, WebSocket

- Developed a mobile-first food ordering system with a live dashboard for restaurant staff.
- Utilized WebSocket for seamless order notifications and updates.

My Portfolio Website:

Technologies: Next.js, Tailwind CSS

- Designed and built a personal portfolio to showcase skills and projects.
- Focused on creating an engaging user experience with responsive design.
